

High security
turnstile

Guardian

For large passage ways.

Guardian is the perfect solution when security at large passage ways, even unmanned ones, is needed to regulate high volumes of people transit.

Designed to also work outdoors, Guardian is employed at airports, sea ports, large business facilities, underground stations, train stations and stadiums.

Guardian

Advantages of Guardian

Guardian is the full-height, high performance turnstile. It is perfectly suited when security is essential. Its sturdy structure and pleasing design make it, on one hand, a sure deterrent against any criminal intent, and on the other, provide the user with total protection. Its durability and reliability are guaranteed even when employed outdoors, thanks to its galvanised steel body and special epoxy varnish coating, which protects it from any corrosive elements.

The range

230 V AC full height electromechanical turnstile

001PSGS3

- Full height single bidirectional electromechanical turnstile.
- 3 sections at 120°
 - Galvanized and painted steel structure
 - Complete with control board and hydraulic damper
 - Bright led signal lights with display on both sides
 - Led courtesy lights
 - Fitted to take transponder sensors.

001PSGD3

- Full height double bidirectional electromechanical turnstile.
- 3 sections at 120°
 - Galvanized and painted steel structure
 - Complete with control board and hydraulic damper
 - Bright led signal lights on both sides

001PSGS4

- Full height single bidirectional electromechanical turnstile.
- 4 sections at 90°
 - Galvanized and painted steel structure
 - Complete with control board and hydraulic damper
 - Bright led signal lights with display on both sides
 - Led courtesy lights
 - Fitted to take transponder sensors.

001PSGD4

- Full height double bidirectional electromechanical turnstile.
- 4 sections at 90°
 - Galvanized and painted steel structure
 - Complete with control board and hydraulic damper
 - Bright led signal lights on both sides.

Full height mechanical turnstiles

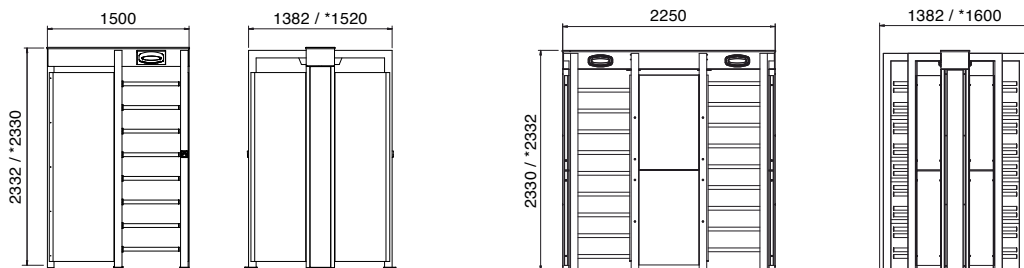

001PSHPS01A

Monodirectional full-height mechanical counter-clockwise turnstile, galvanized and painted steel structure with hydraulic damper.

001PSHPS01O

Monodirectional full-height mechanical clockwise turnstile, galvanized and painted steel structure with hydraulic damper.

Dimensions

PSGS3 - PSHPS01A - PSHPS01O
